SKILLS

- JavaScript, TypeScript, React, Next.JS, Redux, Jest, Java, Tailwind, Micro-Frontend, Microsoft Azure, REST APIs, Graph API, MYSQL, MongoDB, Data Structures & Algorithms, Design Patterns, System Design (HLD & LLD), Git, Maven.

EXPERIENCE

Engineer - React Jul 2025 - Present
BusinessNext Noida

- Collaborated in building a scalable monorepo architecture for CRMNext applications, enhancing code sharing and maintainability.
- Integrated Microsoft Graph APIs to read, write, search, and manage Excel data in OneDrive/SharePoint, enabling document automation.
- Developed reusable frontend components using React.js, TypeScript, Redux Toolkit, and REST APIs for enterprise CRM solutions.
- Authored comprehensive Jest unit test cases, ensuring application reliability, code quality, and maintainable frontend architecture.

Frontend Developer Nov 2023 – Jul 2025
ClevDoc Platforms Inc. Gurugram

- Developed responsive, reusable UI components using React.js, Redux, TypeScript, and JavaScript for seamless user experiences.
- Optimized application performance, reducing page load time by **30%**, and seamlessly integrated RESTful APIs.
- Collaborated with cross-functional teams in an Agile environment to deliver scalable, high-quality web applications.
- Ensured application reliability through Jest, React Testing Library, comprehensive debugging, and code reviews.

Frontend Developer Dec 2022 – Aug 2023
KiwiTech Noida

- Integrated real-time JSON data visualization with ML-driven insights using ApexCharts and Chart.js, enabling analytics dashboards.
- Collaborated with UX/UI designers to deliver accessible, responsive, and user-friendly interfaces across multiple devices.
- Performed peer code reviews and resolved 30+ critical bugs, enhancing code quality, application performance, and stability.

PROJECTS

Ambient Flow | No-Code Multi-Agent Orchestration Platform

- Developing reusable and configurable workflow nodes for a no-code multi-agent orchestration platform, enabling automation of complex enterprise processes and business workflows.
- Integrated Microsoft Graph APIs to automate Excel data extraction, manipulation, and management from OneDrive/SharePoint.
- Engineered document processing features, including range-based Excel extraction, page-range PDF extraction, and PDF generation.
- Developed robust email automation modules with multi-attachment support, enabling seamless document sharing, automated notifications, and efficient enterprise communication workflows.

CRMNext | Banking & Financial Services CRM

- Built scalable frontend applications for an AI-driven Banking CRM platform using React.js, TypeScript, Redux Toolkit, and REST APIs.
- Spearheaded the development of the New Widget Designer module and contributed to the New Layout Designer, enhancing platform customization capabilities and workflow efficiency.
- Collaborated on the migration and implementation of a monorepo architecture, improving code reusability, maintainability, and development efficiency for large-scale applications.
- Designed and executed unit testing strategies with Jest, creating 250+ test files to ensure high code coverage and application stability.

ClevDoc (Banking, CMS) | Loan Recovery System

- Built a scalable Loan Recovery System that digitized borrower-bank interactions, streamlining recovery processes, improving operational efficiency, and enhancing customer experience.
- Designed and developed a Banking CMS to centralize loan and customer data management, ensuring streamlined business operations.
- Integrated payment gateway services and real-time Firebase notifications, enhancing transaction success rates and user engagement.
- Optimized application performance using Redux Toolkit and maintained high code quality through comprehensive Jest unit testing.

CERTIFICATION & ACHIEVEMENTS

- Earned Claude 101 and Claude Code 101 certifications from Anthropic, strengthening AI-assisted development and coding skills.
- Solved 250+ coding problems across platforms including LeetCode, Coding Ninjas, and GeeksforGeeks, strengthening problem-solving and algorithmic skills.

EDUCATION

Dr. APJ Abdul Kalam Technical University 2023
B.Tech in Computer Science and Engineering | 7.1 CGPA Lucknow, UP
