Experience

ClevDoc Platforms Inc.

Nov 2023 – Present

Frontend Developer

Gurgaon, India

- **Developed** responsive and **reusable UI components** using React.js, Redux, and JavaScript, improving **user experience** and maintainability.
- **Optimized performance**, reducing page **load time** by **30%** and integrated **RESTful APIs** for **real-time data** updates.
- Collaborated with **UX/UI** designers to **enhance accessibility** and worked in **Agile teams**, actively participating in standups and code reviews.
- **Ensured application stability** with **unit testing (Jest, Testing Lib.)** and debugging to maintain high **code quality**.

KiwiTech

Dec 2022 – Aug 2023

Frontend Developer

Noida, India

- Worked with the **ML team** to integrate real-time **JSON** data visualization, implementing **interactive charts** using **ApexCharts/chart.js** for better insights.
- **Collaborated** closely with **UX/UI** designers to ensure **accessibility** and **seamless** user experience **across devices**.
- **Conducted** thorough **peer code** reviews, providing **constructive feedback** on code **quality, performance**, and **security** identified and resolved **30+ critical bugs** before code **deployment**, improving application **stability**.

Technical Skills

Languages: JavaScript, Java, TypeScript, HTML5, CSS3

Libraries & Frameworks: React JS, Next JS, Vite JS, Angular, Redux, Flux, Tailwind CSS, Bootstrap

Web Dev Tools: VSCode, Git, IntelliJ, JIRA, SonarQube, Notepad++, Postman

Databases: MongoDB, MySQL

Concepts: Software Development Life Cycle (SDLC), Agile methodologies, UI/UX design principles

Projects

ClevDoc (Banking, CMS) | Loan Recovery System

- **Architected** Clevdoc Banking Platform with responsive UI, a responsive **loan recovery** solution **enhancing communication** between **banks and borrowers**, ensuring **seamless** user experience and efficient **financial workflows**.
- Built a comprehensive **Banking CMS** for seamless data management, improving operational **efficiency and integrity**.
- Integrated a secure **payment gateway** for smooth and hassle-free **transactions**, and implemented real-time **push notifications** using Firebase to keep users instantly informed of critical updates.
- **Optimized state management** with **Redux Toolkit**, enabling efficient component communication and ensuring application stability through **comprehensive testing with Jest**.

VoiceKit | Emotion Analyzer

- **Collaborated** as a Frontend Developer with a focus on **React JS** in the development of **VoiceKit**, a product utilizing **Machine Learning** to analyze **emotions within audio**.
- Integrated extract **emotion data** by **Machine Learning** models, which was then **visualized** through the creation of **Scatter and Bar Charts**.
- **Enhanced** user experience by implementing a **range of features**, including **audio uploading**, an **audio player**, **PDF** download capabilities, and **Date Picker filter**.

Education

Dr. APJ Abdul Kalam Technical University

June 2023

Bachelor of Computer Science and Engineering

Lucknow, UP

Certification & Achievement

- **React** certification, **Udemy**
- Solved more than **150+ problems** on multiple **Coding Platforms** like **CodingNinja, Leetcode** etc.

Interest

- Travelling, Problem Solving, Basketball, Badminton, Finance.
